2619442 - Display of Infotype Numbers in Front of Infoype Text in Miscellaneous Transactions

Component: PA-PA-XX (Personnel Management > Personnel Administration > General Parts), Version: 1, Released On: 2018.04.19

Symptom

Improvement Request

Display of the infotype number in addition to the infotype text on infotype menu tabs of the initial screen in miscellaneous transcations.

Request Reason

Displaying the infotype number will increase the communication efficiency among end-users of the system.

Other Terms

Customer Connection, HCM CC 2018, Personnel Administration, Idea 412, PA30, PA20, Infotype Number

Reason and Prerequisites

This SAP Note results from an improvement request that was submitted by customers.

Solution

Improvement

With this improvement, you can provide the infotype number in addition to the infotype text in the following transactions:

PA20	Display HR Master Data
PA30	Maintain HR Master Data
PA61	Maintain Time Data
PA62	List Entry of Additional Data
PA63	Maintain Time Data
PA64	Calendar Entry
PA70	Fast Entry
PA71	Fast Entry of Time Data

Benefit

The additional information helps the end user while working together with colleagues. For example, sometimes it's clearer to talk about Infotype 0008 than talking about Basic Pay infotype. Many users are unaware that the infotypes are numbered and knowing those numbers will help them to easier navigate within the system

Delivery

Implement the corrections of Interface SAP Note via *SNOTE* or implement the relevant Support Package.
To enable the new functionality, you have to activate the new switch ADMIN ITEXT in table T77S0. Once the value of the switch is set to *X* the system displays the infotype number in addition in front of the infotype text. If the value is set to 'blank' (standard setting) the system does not display the infotype number.

Manual Activities

```
---------------------------------------------------------------------
|Manual Pre-Implement.                                              |
---------------------------------------------------------------------
|VALID FOR                                                          |
|Software Component    SAP_HRRXX                    SAP HR Reused F...|
| Release 608          Until SAPK-60853INSAPHRRXX                   |
---------------------------------------------------------------------
```

In the transaction sm30 for table T77S0 please create the entry:

```
GRPID    ADMIN    TEXT
SEMID    ITEXT        Infotypnummer in PA20/PA30
```

Important: the Logon language must be German.

The value must be set to 'X' if you want to activate the new functionality. The value corresponds to the third column in table T77S0.
